

## Darker Than The Bat EX NIHILO: Maladie Mentale CD Demo 3B

Maladie Mentale introduces you the new way of Ex Nihilo. Ex Nihilo has split in three now. While Ex Nihilo will remain an electro-industrial project, Cogito/Ex Nihilo will produce dark ambient and Cicerone/Ex Nihilo will cater for trip hop fans. The music is more dark and industrial minded with a strange dark distorted voice although there are less lyrics on this album than on previous ones. This clear change, when compared the last album Visions, is still less harsh and hard than other industrial acts. The music has more harmony and sound structures and is easier to listen to. Some songs I like are Voyage A L'Interieur Du Cerveau, Pierres De Tonnerre, Les Chambres Du Verveau, Psychotique and especially Des Espoirs. The Swiss artist Laine brings different songs to match different moods.
